Skills

I have a strong educational background and my career is filled with varied experiences. I graduated with a Bachelor degree in Electronics and Communication Engineering. I pursued my MS in Computer Science and then I worked as a Software Programmer for several years before pursuing my current career as an Attorney in Las Vegas. I am a graduate of UNLV Boyd School of Law. I did extensive research when I was a MS student. And my legal training has honed my research skills. I believe this will assist me tremendously in serving in this Commission. I also have extensive training in financial analysis and planning.

Experiences

I have been a Las Vegas resident for last 16 years. Over the years, I have lived and experienced the South Asian community. As an attorney, I have learnt first-hand about the socio-economic background of my clients from very diverse backgrounds. I also am involved with Charitable organization like Ekal which supports education initiatives in remote villages of India. I am currently President of Las Vegas Chapter of Ekal, and have been instrumental in doing fund-raising for this noble cause. In the past, I have been involved with various activities in the Asian-Indian Community. I have been involved with ProBono legal services and volunteer activities for people with limited means.

I have raised two kids in Clark County Schools. As part of raising the kids, I have been involved with their friends and families over the years. This has given me immense exposure to socio-economic conditions of the Vegas community in general and South Asian community in particular. I also served on the Board of a local Magnet school.

My biggest relevant experience has been in the AAPICC itself. I was a member of the last Commission (2019-2021). The exposure, research and experience that we collectively gained in our last term will be a great asset for me if I am re-appointed for the next term.

Letter of Interest

I feel humbled and honored to serve on Asian-American Pacific Islanders Community Commission (AAPICC) in the last term (2019-2021). It was a wonderful experience to get involved with such diverse commissioners from various sections of our community. Despite the COVID shutdown and slowdown, our team of dedicated commissioners achieved the goals that we set out.

I would like to continue the work that the Commission started and be part of the next team. The exposure, research and experience that we collectively gained in our last term will be a great asset for me if I am re-appointed for the next term.

I bring a great combination of educational, legal, technical, financial and research experience. I have a

- (1) Bachelors degree in Electronics & Communication Engineering,
- (2) Masters degree in Computer Science and
- (3) a JD degree

I am confident that the combination of my education, training, experience, dedication and drive will provide you with an invaluable resource in achieving the goals of this Commission. I am hereby enclosing my resume.

I look forward to hearing from you and discussing my background and experiences with you.

Thanks
